

Dear E&T Committee clerk Energy & Tech Comm Energy & Tech Comm,

Dear Senator Needleman, Representative Arconti, and members of the Energy and Technology Committee,

Please advance a Green New Deal for Connecticut by supporting Proposed Bill 5002.

Connecticut is at a crossroads, and has an opportunity to shape a healthier, more equitable, and more vibrant future for its people.

We love our state but are upset to know people are leaving because of high taxes and inadequate highways (I 95!) and too few conservation laws. This bill addresses some vital situations to help the latter and will set the environmental standards for future actions. Think green!

Thank you.

Sincerely,
MRS Sally Smith
